PARENTS' FEEDBACK REPORT 2017-18

The Internal Quality Assurance Cell (IQAC) of the Sullamussalam science college, in association with the Parents Teachers Association (PTA) collects parents' feedback on curriculum and the overall performance of the college annually. In addition to this, IQAC distributes structured questionnaire to parents through their children and collect their response. They were given an opportunity to rate the syllabus on a five scale measurement. The objective of the feedback is to analyze the quality and content of the curriculum implemented in the college, the job orientation and employability of the syllabus, role curriculum in in enhancing intellectual aptitude, and the contribution of the college in instilling values and ethics in students. In addition to this the feedback evaluates the overall personality development of the ward and the facilities provided by the college such as library, laboratory and computers.

Through a systematic analysis of the responses of parents, this report tries to give a clear picture about the parent feedback system of the college. The responses on all the six questions in the questionnaire are analyzed below.
